DB VIDEO STUDIO LOCATION

For over 25 years, **DB Video** has been a leading provider of audiovisual services. Founded by Dimitri Beyaert in 1998, the company has grown into a strong player in the audiovisual facilities market, with a significant focus on multi-camera productions.

We offer multiple studios equipped with control rooms, ideal for live webinars and hybrid events. Our comprehensive services can handle everything from pre-production to broadcasting on our interactive live platform, ensuring a seamless experience for our clients.

Conveniently located in Aartselaar, our studios are easily accessible and provide a professional environment for all your production needs.

STUDIO LOFT

On top of our building in Aartselaar is a state-of-the-art modern loft. Would you like to make recordings in a homey atmosphere? You can do that in our Loft studio. A kitchen, living room, and more are available for your recordings.

Setting: A modern kitchen - dining area - lounge roof terrace - 2x separate bedrooms - bathroom

SERVICES

STUDIOS

Discover our professional TV and film studios. The studios in Aartselaar are equipped with a fixed control room, allowing us to offer them at very competitive prices.

Prefer a custom setup? No problem, we can also operate in any location of your choice.

PRE-PRODUCTION

Good preparation is half the battle, especially in video productions. Do you need a custom set design? Want those graphic elements in your brand style? Need help developing an original concept?

Our planning team handles all pre-production. They create a realistic timeline, make the necessary preparations to ensure smooth shooting days, and brief the crew. This detailed preparation allows the on-site crew to conduct a productive shoot, knowing exactly what is expected of them.

INTERACTIVE LIVE PLATFORM

If you need to connect virtually, livestream your meeting, organise your hybrid event, and connect with your audience both online and offline.

For a fully virtual experience, virtual fair, or event, our colleagues at Webble-up are ready to assist you.

POST-PRODUCTION

The recordings are done. Let's go where the magic happens. Our editors are ready to summarize your event, create a social media trailer, or edit an aftermovie.

SERVICES

PARKING

Each studio building has a spacious parking area. For each production, we reserve 4 parking spaces at the entrance with logo signs. Your guests or colleagues will see where they can park upon arrival.

MAKE-UP & LOGES

Each studio has a space where your guests can relax, prepare, or wait in peace. A professional makeup mirror is provided. A completely separate dressing room, further away from the production area, can be arranged upon request.

CATERING

Throughout the building, drinking fountains are available. Each studio location is equipped with a kitchen that includes coffee and tea. For each production, we provide chilled soft drinks and small snacks. If you would like sandwiches, breakfast, or a full meal, this can be arranged upon request.

FOODCONCEPT 42

At [Foodconcept 42](#), our company restaurant, you can enjoy a relaxing lunch between recordings. With its inviting atmosphere, it's the perfect place to unwind and recharge. Whether you prefer a quick bite or a leisurely meal, Foodconcept 42 offers a variety of delicious options to suit every taste. Join us for a break from the action and experience a culinary retreat right on-site.

DECOR ELEMENTS

In our studios, there are some standard decorative elements available for free use. As a client, you can choose from this list. Other options are of course possible and as an additional service, we can work with you to find the right elements to elevate your production to the next level.
